

## **Plustek OptiCard 821**

There is a better tool to store your data

The Plustek OptiCard 821 is a palm size scanner that provides a total solution for managing your business cards, organizing your checks receipts, expenses, and storing photos into digital files. OptiCard 821 can be applied in various sections for example,

### **1. For Business**

- Opticard 821 extracts contact data from your business cards and updates it into a well-known Business Card Management Software so that you can find all customer's information on time, whenever you need.

### **2. For office**

- OptiCard 821 utilises built-in robust Optical character recognition (OCR) engines, it converts scanned text into various digital formats, such as Word, JPG, excel and Searchable PDF. It helps officers who transfer paper documents into digital files with 100-percentage accuracy. The

function of Searchable PDF assists users who find their information immediately.

### **3. For Security**

- OptiCard 821 is capable of scanning ID cards, drivers' licenses, and any kind of plastic cards, transferring visitor information into a secure database, save working time on transferring visitors' info from paper to database.

### **4. For Family**

- OptiCard 821 is capable of scanning photos, greeting cards, and postcards into various image formats such as JPG, BMP, and TIF. Do not worry your precious photos turning yellowish anymore!

OptiCard 821 is a great solution for digitizing all of your documents and saves you time in research, it also saves you money by reducing paper volume and preserves natural resources.
